

Alcatel-Lucent OXO Connect C25

Innovative, customer-focused and cost-effective communications for small digital businesses

Growing your business in the Digital era

Your communications solution should help you grow your business in the Digital era.

You expect:

- **Instant communications** between your staff members, allowing them to quickly and accurately respond to business requests, even when they are visiting customers and prospects.
- **Excellent response to your customers' requests.** Customers, partners and suppliers can reach your staff immediately and have their questions answered anytime from a solution that is extremely robust and easy to use.
- **Cost control.** The solution must offer an immediate return on investment and an upgrade path to technologies that help your business compete and win.

OXO Connect C25

PowerCPU-EE C25

OXO Connect C25 for digital small businesses

Alcatel-Lucent OXO Connect C25 is a complete phone system within a **robust and optimized appliance** for businesses with **up to 25 users**.

OXO Connect C25 offers **built-in access** to the cloud-based, **Alcatel-Lucent Rainbow™ unified communications**.

With OXO Connect C25, your business benefits from:

Innovative communications

- Rainbow is a cloud-based application for **audio, video, chat and document sharing on PCs and smartphones**
- **Advanced communication services for all users** regardless of whether they are using sturdy analog phones, convenient digital phones or robust wireless handsets
- **Intuitive communications experience** with zero training required

Customer-focused interactions

- **Advanced, reliable business phones and handsets**
- No calls are lost and opportunities are never missed from **built-in voicemail** and greeting application
- Built-in call greeting to route customer calls to the most relevant staff members

Cost-effective and reliable solution

- **Optimized phone system appliance** that delivers reliable communications: Unified Communications and remote management are offered through a connection to an external cloud service
- **Out-of-the-box digital and analog connections:** No additional IP equipment is needed for reliable connections in all types of buildings including warehouses. Minimal power supply and maintenance requirements.
- **Upgrade path to IP and cloud communications**
