

BUSINESS COMMUNICATIONS FACE NEW DRIVER OF CHANGES

Digital assistants and bots

By 2023, 35% of workers will start working with bots or other forms of AI (IDC).

Mobile workplace

More than 75% of workers would be more loyal to their organization if it offered flexible work options (FlexJob).

Video collaboration

Business phones connected to a collaboration solution will help people work together wherever they are.

In this age of digital transformation, your customers expect **quality interaction, impeccable service, and fast response** from your teams.

MAKE A DIFFERENCE: CHOOSE CLOUD-ENABLED BUSINESS PHONES

The Alcatel-Lucent Enterprise business phones connect to the Alcatel-Lucent Rainbow Cloud, and to AI-enabled applications, right from your desk.

Make life easier

for your teams and provide your customers with a **quality** communication experience that leverages **AI-enabled applications and cloud-based video collaboration**.

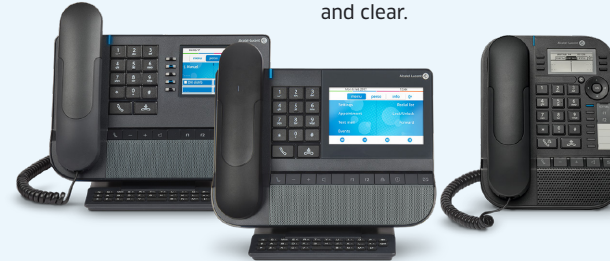

Customer experience

By 2020, 86% of buyers will pay more for a better customer experience (Walker Study).

Quality communications

With super-wideband audio, all communications will come across loud and clear.

Over **40 million** workers offer their customers a **superior experience** with Alcatel-Lucent Enterprise phones: **Join them!**
